

THE DAIRY PRACTICES COUNCIL

INDEX TO PLANT QUALITY CONTROL GUIDELINES

	<u>Guideline Number</u>	<u>Volume</u>
Allergen: Food Allergen Awareness In Dairy Plant Operations.....	80	III
Antibacterial Drugs (Detection & Control)	22	I
Bacteria Counts (Troubleshooting of Raw Milk)	24	I
Butterfat		
Controlling Fat Losses	40	II
Determination in Various Dairy Products	34	II
Variations in Raw Milk	32	II
Clean Room Technology	14	I
Composition & Nutritive Value of Dairy Products	31	II
Controlling The Quality And Use Of Dairy Product Rework	63	III
Cleaning and Sanitizing		
In Fluid Milk Processing Plants	29	I
Tank Trucks	25	I
Dairy Products Handling	16	I
Directory of Regulatory Personnel	3	I
Electronic Testing (Controlling Accuracy).....	51	II
Emergency Action Plan for Outbreak of Milk-borne Illness in the Northeast.....	52	II
Environmental Air Control and Quality for Dairy Food Plants	13	I
Flavor		
Preventing Off-Flavors in Milk.....	38	II
Rancid Flavor Prevention.....	23	I
Milk Collection (from Farm Tanks).....	50	II
Frozen Dessert Processing	61	III
Goat Milk, Regulation and Quality of	59	III
Good Manufacturing Practices For Dairy Processing Plants	8	I
Hazard Analysis Critical Control Point System.....	55	III
Milk Plant Inspection.....	39	II
Supplement To Milk Plant Inspection.....	39-S1	II
Milk Quality Tests	21	I
Nutritive Value of Dairy Products	31	I
Resources For Dairy Equipment Construction Evaluation	62	III
Sampling Fluid Milk.....	7	I
Sanitation	57	III
Dairy Product Safety (Relating to Pathogens).....	56	III
Sediment Testing of Fluid Milk	11	I
Troubleshooting Microbial Defects In Dairy Processing Plants.....	60	III
Maintaining and Testing Fluid Milk Shelf-Life.....	10	I
Vitamin Fortification of Fluid Milk Products	53	II
Waste Management	35	II
Water Added to Milk	17	I
